| Fri, Sep 10 | 8:00 pm | The Paperboys we are accepting reservations...no tickets out there anywhere! admission to be paid at the door Mexican Son Jarocho mixed in with Irish Jigs and Reels and a good dose of Country and Bluegrass. It has healthy servings of Ska,Soca and African Highlife and we've been known to throw in a little White Boy Reggae.Of course it also has strains of Soul, Pop and Funk. It is mostly acoustic although we also like electric guitars. It is definitely folk music but not in the Kumbaya Style. It has a deep respect and appreciation for tradition (Bluegrass,Old Time,Celtic,Son) but it's by no means traditional. It rocks incerdibly hard and is extremely danceable, but that is not to say it can't be mellow, slow and beautiful. It can be heart breaking, but also joyous. It is never dark or angst ridden, and always full of hope. It's not jazz, although we like jazz a lot. It's not heavy metal or punk or grunge although we love Rush and AC/DC. It is World Roots music. It is pop music. It is good music. It is the only multi-cultural,multi-ethnic,multi-generational,multi-ligual,multi-instrumental,genre bending coed band you will hear today!! | \$18 |
